

**Reservoir Engineer, East Texas  
Houston, TX**

Dalton Boggs & Associates is seeking a Reservoir Engineer for the East Texas operations of a privately funded company headquartered in Houston, Texas, that engages in the acquisition, development and production of natural gas and crude oil properties. The company's focus and expertise include East Texas, South Texas, Lower and Upper Texas Gulf Coast, and the Rocky Mountain region.

The company owns more than 274,000 total net acres, proved resources of 190 Bcfe (85% gas) and probable reserves of more than 120 Bcfe. They have 300 operated wells and 300 non-operated wells in East Texas.

The Reservoir Engineer will be responsible for providing technical support in evaluating and monitoring existing and future interests in oil and gas assets including providing reserve assessments, economic analyses and reservoir performance modeling, preparing written reports, and evaluation of acquisition candidates.

Qualifications include BS in Petroleum Engineering or BS in other type of engineering with petroleum related training, 10+ years experience in reservoir engineering, experience with reserve analysis, reservoir modeling, economic evaluations, cash flow analysis and other reservoir engineering related activities.

All inquiries will be held in the strictest of confidence. An extremely competitive compensation, benefits, and relocation package is available. If you know of anyone who may want to receive some additional information about this exciting opportunity, please have them call, contact or submit a resume in confidence to:
