

Dalton Boggs & ASSOCIATES

Senior Geologist Houston, Texas

One of the largest and most successful managers of oil and gas assets for institutional investors in the country is seeking a Senior Geologist. The company currently operates more than 18,000 wells in 12 states: Arkansas, Colorado, Kansas, Louisiana, Michigan, New Mexico, New York, Ohio, Oklahoma, Pennsylvania, Texas and West Virginia.

The Senior Geologist will work with a multi-disciplined team to develop drilling and recompletion opportunities primarily in the San Juan Basin. Monitor industry activity in the basin and support team efforts for acquisitions and joint ventures. Assist the Acquisition and Divestitures group with the evaluation of acquisition opportunities on a project-by-project basis.

Qualifications include BS degree in Geology, 8+ years of industry experience, and proficiency in the correlation of well logs and basic well log analysis. Ability to supervise and conduct logging runs, ability to monitor industry activity across the basin, and strong communication skills. Must be proficient in Geographix and the ability to utilize computer workstations to generate cross sections and structure, net pay, and isopach maps.

Experience in the San Juan Basin is a plus.

All inquiries will be held in the strictest of confidence. An extremely competitive compensation, benefits, and relocation package is available. If you know of anyone who may want to receive some additional information about this exciting opportunity, please have them call, contact or submit a resume in confidence to:
